Applicant: Hiroaki FUJII et al.  
Title: SEAT BELT DEVICE  
Patent No.: 7,537,242

Art Unit: 3616  
Confirmation Number: 1813

**RENEWED**  
**REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT**  
**UNDER 37 C.F.R. §1.705**

Attn: Office of Petitions  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Further to the Decision on the Request for Reconsideration of Patent Term Adjustment (copy attached as Exhibit 1), mailed February 17, 2009, in connection with the above-captioned patent, reconsideration is hereby requested of Applicants original request.

In the Decision, the Petitions Attorney stated that Applicants' Request for Reconsideration of Patent Term Adjustment under 37 C.F.R. § 1.705, as it relates to the Office's failure to issue the patent within 3 years of the filing date, is being held in abeyance until after the actual patent date, and Applicants are given two (2) months from the issue date of the patent to file a written request for reconsideration. Applicants note that the application has now issued into U.S. Patent No. 7,537,242, and hereby request reconsideration of the decision denying our Request for Reconsideration previously filed on September 9, 2008 based on the following facts.

The Patent Office determined that the patent was entitled to 458 days of PTA. Applicants believe that the PTA determination was made in accordance with the “Explanation of 37 CFR 1.703(f) and of the United States Patent and Trademark Office Interpretation of 35 U.S.C. §154(b)(2)(A)” published at 69 Fed. Reg. 34238 (Jun. 21, 2004). Under that interpretation of the PTA statute, any PTO delay under 35 U.S.C. § 154(b)(1)(A) is deemed to overlap with any 3-year maximum pendency delay under 35 U.S.C. § 154(b)(1)(B), and so, as a practical effect, PTA may be awarded under §154(b)(1)(A) or §154(b)(1)(B), but not both.

On September 30, 2008, the United States District Court for the District of Columbia issued a decision finding that the U.S. Patent and Trademark Office’s interpretation of the PTA statute is incorrect. *Wyeth v. Dudas*, Civ. Action No. 07-1492 (JR) (Sep. 30, 2008). The court determined that, under the correct interpretation of the PTA statute, periods of “overlap” are limited to “periods of time . . . [that] occur on the same day.” *Wyeth*, slip op. at 8. Thus, a PTO delay under §154(b)(1)(A) overlaps with a delay under §154(b)(1)(B) only if the delays “occur on the same day.” *Id.*

Applicants have recalculated the patent term adjustment for the captioned patent under the court’s interpretation of the PTA statute, and have determined that the patent is entitled to 795 days PTA, as shown in Exhibit 2, which shows the relevant delays under 37 CFR §§1.702(a) and (b), and under 37 CFR §§1.703(a) and (b).

Exhibit 2 details the circumstances during the prosecution of the application resulting in the application that constitute a failure to engage in reasonable efforts to conclude processing or examination of such application as set forth in § 1.704.

(a) Total of non-overlapping PTO delay under §154(b)(1)(A) & (B):	823 days
(b) Total Applicant delay:	28 days
Final PTA Determination:	795 days

Applicants therefore respectfully request that the patent be accorded 795 days PTA.

The patent is not subject to a terminal disclaimer.

Payment of the requisite fee was previously paid, with the Request filed on September 9, 2008. Applicants believe that no additional fees are due with this Renewed Petition, however, the Commissioner is hereby authorized to charge any additional fees which may be required regarding this request, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

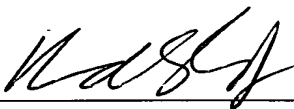

However, because this PTA error is due to a Patent Office error in interpreting and applying the PTA statute, a refund of the fee is respectfully requested.

Applicants request further that a decision on this request be **deferred or delayed** until a final decision has been rendered in *Wyeth v. Dudas*, which is now on appeal at the U.S. Court of Appeals for the Federal Circuit, under Federal Circuit Docket No. 2009-1120.

Please direct all correspondence to the undersigned attorney.

Respectfully submitted,

Date 24 July 2009

In re Application of	:	<b>OFFICE OF PETITIONS</b>
Fujii et al.	:	
Application No. 10/718,543	:	ON APPLICATION FOR
Filed: November 24, 2003	:	PATENT TERM ADJUSTMENT
Atty Docket No. 086142-0600	:	

This is in response to the REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT UNDER 37 C.F.R. § 1.705(d) filed September 9, 2008. Applicant requests that the determination of patent term adjustment be corrected from two hundred (200) days three hundred twenty-one (321) days. Applicant requests this correction in part on the basis that the Office will take in excess of three years (3 years and 4 days) to issue this patent.

To the extent that the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, a decision is being **held in abeyance** until after the actual patent date. Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.703(b). (This is true even in this instance where a request for continued examination (RCE) was filed. The computer will not undertake the § 1.703(b) calculation until the actual date of issuance of the patent has been determined. Accordingly, it is still too soon to make a determination as to the correctness of any period of adjustment that will or will not be entered pursuant to § 1.703(b)).

Applicant is given TWO (2) MONTHS from the issue date of the patent to file a written request for reconsideration of the patent term adjustment for Office failure to issue the patent

within 3 years. A copy of this decision should accompany the request. Applicant may seek such consideration without payment of an additional fee. However, as to all other bases for seeking reconsideration of the patent term adjustment indicated in the patent, all requirements of § 1.705(d) must be met. Requests for reconsideration on other bases must be timely filed and must include payment of the required fee.

Rather than file the request for reconsideration of Patent Term Adjustment at the time of the mailing of the notice of allowance, applicant is advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term pursuant to 37 CFR 1.705(d). The USPTO notes that it does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent and accordingly, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent.

It is acknowledged that any period of adjustment will be entered in light of 35 U.S.C. 154(B) GUARANTEE OF NO MORE THAN 3-YEAR APPLICATION PENDENCY, which provides that:

Subject to the limitations under paragraph (2), if the issue of an original patent is delayed due to the failure of the United States Patent and Trademark Office to issue a patent within 3 years after the actual filing date of the application in the United States, not including -

(i) any time consumed by continued examination of the application requested by the applicant under section 132(b);

It is noted that a Request for Continued Examination (RCE) was filed in this application on October 31, 2007.

To the extent that applicant otherwise requests correction of the patent term adjustment at the time of mailing of the notice of allowance, the application for patent term adjustment is **GRANTED**.

The Office has updated the PALM screen to reflect that the correct Patent Term Adjustment (PTA) determination at the time

of the mailing of the notice of allowance is three hundred seventeen (317) days. A copy of the updated PALM screen, showing the correct determination, is enclosed.

On August 8, 2008, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment (PTA) to date is 200 days. On September 9, 2008, applicant timely submitted the instant application for patent term adjustment<sup>1</sup>. Applicant disputes the reduction of 145 days associated with their delay in filing a reply in compliance with 1.113(c) to the final Office action mailed March 8, 2007. Applicant states that this period should have been calculated as 28 days based on their filing of a Notice of Appeal on July 6, 2007, and not as 145 days based on their filing of a request for continued examination (RCE) on October 31, 2007.

The record supports a conclusion that this application is not subject to a terminal disclaimer.

Applicant's arguments have been considered and found persuasive. A review of the record reveals that the Notice of Appeal was re-submitted on September 5, 2007, with a date-stamped postcard evidencing its original filing in the Office on July 6, 2007. As such, with respect to the final Office action mailed March 8, 2007, the period of applicant delay within the meaning of 37 CFR 1.704(b) is properly calculated using the date of filing of the notice of appeal, July 6, 2007. July 6, 2007 is three months and 28 days after March 8, 2007. The period of reduction of 145 days is being removed and the period of reduction of 28 days is being entered.

It is further noted that the filing of the request for continued examination (RCE) on October 31, 2007 does not constitute applicant delay. (As previously stated, its filing does cut off the period for calculating the over 3 year Office delay).

In view thereof, the correct determination of patent term adjustment at the time of the mailing of the notice of allowance is 317 days (345 days of Office delay reduced by 28 days of applicant delay).

---

<sup>1</sup> PALM records indicate that the issue fee was also paid on September 9, 2008.

Receipt of the \$200.00 fee set forth in 37 CFR 1.18(e) is acknowledged. No additional fees are required.

The application is being forwarded to the Office of Data Management for issuance of the patent. The patent term adjustment indicated on the patent will include any additional patent term adjustment accrued for Office delay in issuing the patent after payment of the issue fee and all outstanding requirements having been met.

Telephone inquiries specific to this matter should be directed to the undersigned at (571) 272-3219.
